A new Shopping mall has opened

There's a shopping mall that every shadow teen wants to go to get stuff, and it attracts 300 teens a day and apparently it has too and it was made from Mr. Haze the same guy who was born in the 2000s and he made this so people will feel the nostalgia again.

Upstairs

In the mall so many shadow teens meet new people and that means that teens can get stuff they missed out again and it's fantastic for parents that have troubling teens and when shadow teens see the mall they remember that it's like the same like their old mall when they were a kid.

And teens can be teens and act like regular teens and being happy and they don't have worry about anything at all. They can act like they are very social and the owner is pleased in his work as always. There's also a food court to buy some food so they can eat to hang out and to pick anything in the food court.
